

GA CD6 Special Election Poll 6/16/2017

Sponsor(s)	Fox 5 Atlanta served as the sponsoring organization. Opinion Savvy, LLC conducted the survey on behalf of the sponsor.
Target Population	Likely special runoff election voters; Georgia; Congressional District 6
Sampling Frame & Methodology	<p>Frame: The sample frame includes registered voters with either a landline telephone or internet-enabled mobile smartphone. Registered voters without access to either a landline telephone or an internet-enabled smartphone are excluded from the frame.</p> <p>Methodology Blended sample; mixed mode</p> <p>Contacted voters of both modes were selected randomly from a list of registered Georgia voters purchased by Opinion Savvy from the Georgia Secretary of State. Only voters determined likely to vote in the special election were selected to participate in the survey, based on past election participation. Voters without a valid landline telephone number were selected for the mobile sample.</p> <p>Landline: selected voters were contacted on June 14th 2017 using an automated interactive voice response system. The survey was presented in English.</p> <p>Mobile: selected voters not available by landline telephone were contacted on June 14th and 15th 2017 on their mobile devices. Using voter data, selected voters were first matched to online and mobile application profiles electronically, using IP verification to ensure accurate selection and to prevent duplicate results. Selected voters were shown a brief message, push notification, or mobile advertisement requesting their participation in the survey. Respondents were offered a small, non-monetary prize for survey participation. Respondents answered a web-based survey instrument identical to that of landline respondents in written form. The survey was presented in English.</p>

Weighting

The blended sample was weighted for age, race, gender, party identification, and county using propensity scores. Weighting benchmarks were determined using 2014 and 2016 general election voter turnout figures provided by the Georgia Secretary of State.

Total Number of Respondents

537

Margin of Error*

± 4.2% (95% confidence; not adjusted for weighting)

*The reported margin of sampling error is calculated using multiple assumptions that modern surveys rarely fit. The estimate assumes that, insofar as probability-based sampling is possible under real-world conditions, this model conforms to these parameters. Disregarding response rates, each individual within the studied population is equally likely to be selected for survey participation.
